DETAILED ACTION

1. Claims 1,8-10,17-18 are allowable. The restriction requirement between species I-V, as set forth in the Office action mailed on 3/31/04, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2-7,11-13, directed to species I-V are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 14-16, directed to species II-V remain withdrawn from consideration because they do not all require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application is in condition for allowance except for the presence of claims 14-16 directed to species non-elected without traverse. Accordingly, claims 14-16 have been cancelled. Note that although Applicant states election with traverse, Applicant

Art Unit: 3643

did not provide argument in the reply filed 6/30/04, therefore, the election is taken as without traverse.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: cancel claims 14-16.

Allowable Subject Matter

4. Claims 1-13,17-18 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose or render obvious a rotary hydroponic plant-growing machine as claimed in detail, especially the feature of the cylindrical shell comprises a circumferential surface which defines a plurality of longitudinal slots oriented generally parallel to an axis of said cylindrical shell, said slots extending through said cylindrical shell and being open in both a radially inward direction and a radially outward direction of said cylindrical shell.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
